<b>Committee Members, if applicable (remember that PTA President is a part of every committee)</b>		

When the membership approves the PTA budget, it is authorizing the board of directors to spend PTA funds. The is NOT an authorization for a committee to spend funds. Each committee is responsible to formulate a plan and budget, and present these to the board of directors prior to raising or spending any funds. Use the budget planning worksheet if that will help document your expenditures.

When changes with budget happen, please ensure you are communicating that with the board, and getting approval for the changes. If not approved, it may not be reimbursed.
